📍 Bengaluru, KA ✉ kunalmehra240304@gmail.com ☎ +91 93290 37858 🔗 LinkedIn 📄 Github 🌐 kunalmehra075.github.io

A **Full Stack Software Engineer** with **3 years** of experience building scalable web applications using **MERN**, Python, Golang and cloud technologies. Passionate about writing production-ready software & solving real-world engineering problems.

TECHNICAL SKILLS

- React.js | Node.js | MongoDB | JavaScript | TypeScript | Golang | Python | Django | React Native | Express | REST APIs
- System Design | AWS Cloud | OAuth | WebSockets | Docker | Serverless | Jenkins | Firebase | MySQL | Redis
- Tailwind CSS | Chakra/Material UI | Redux Toolkit | Selenium | Playwright | SonarQube | Unit Testing | Integration Testing

EXPERIENCE

The Factual Holding Co. (Software Engineer)

[Newark, USA \(Remote\)](#) Jan 2026 - Present

- Worked on building a Telehealth Infrastructure for B2B brands, connecting doctors' networks to tele-health businesses.
- Took ownership of two projects, designed full **BE architecture** with Redis, Kafka, Postgres, resolved major code issues.
- Developed a **cross-platform affiliate system**, for brand sponsorships and influencers' product videos.
- Worked on designing an AI Image/Video Generation platform with multiple providers in a **strategy pattern** & fallbacks.
- Created **Claude + cron agentic loops** for daily maintenance, testing and health checks of company's products.
- Implemented Grafana, Metapixel, PostHog, and monitored KPIs for providing insights in BE architecture.

Firewires OneloT (Software Engineer)

[Hyderabad, IND](#) June 2025 - Dec 2025

- Worked as a Full Stack Developer, coordinated with backend & frontend teams for **end-to-end feature integrations**.
- Delivered **4-5 rapid proof-of-concept (PoC) projects**, built within **1-2 days**, leading to faster client demos & deal closures.
- Integrated **Custom Reporting** Dashboard feature from both React web & React Native mobile app portals.
- Led **database migration** from MongoDB to CassandraDB, improving scalability & handling high-volume data use cases.
- Migrated frontend web platform to use **ShadCN charts** from **Chart.js** and also integrated **3D Digital Twin** features.
- Managed entire web platform, reviewing PRs of other team members & urgent client-related issue fixes.

86 Agency (Software Engineer)

[Gurugram, IND](#) June 2023 - May 2025

- Worked on **20+ web applications** using **React, Node, Python, Django**, leveraging multiple UI libraries and many technologies to handle complex **CRUD** operations with appropriate code **quality** and **readability**.
- Collaborated with 3 international clients, creating APIs, resolving complex **issues** in their codebases, and integrating **Apple and Google Passes** into mobile wallets with **notification** management.
- Worked on a **design system** using **ShadCN** and **Storybook**, and developed a user **contract management** backend.
- Created a video call app with **React Native**, featuring chat, calendar events, and live **chat** with **WebSockets**.

PROJECTS & MILESTONES

[Bucketick](#) (A Social Media Mobile Application)

[Github](#)

A social bucket list app that helps people create, share, and complete life goals with friends, partners, and the community.

[Alpha-Shorts](#) (Short form content orchestrator tool)

[Github](#)

A short-form content orchestrator - Scripting, Audio, Captions, Video Editing, Posting - React & Golang.

[TokensPoker](#) (Poker web app for Tokens & Timelines)

[Github](#)

A real-time scrum tool for corporate, where teams can decide A.I. resources/effort allocation for a task/projects.

EDUCATION

Pesto Fellowship, Pesto Tech (Engineering Fellow)

[San Francisco, USA \(Remote\)](#) July 2023 - June 2024

- A **10-month-long** program based on the **MERN stack** to improve the core concepts & learn **System Design**.

Full Stack Web Development Trainee, Masai School

[Bengaluru, IND](#) August 2022 - May 2023

- A **7-month** coding bootcamp for MERN dev, spending **1,200 hours coding** applications and solving **800+ DSA problems**.

Bachelor of Computer Applications (BCA)

[Hyderabad, IND \(Remote\)](#) June 2025 - May 2028

- KL University, Hyderabad, Telangana

ADDITIONALS

Soft Skills: Leadership, Strong Communication, Adaptability, Problem-Solving & Remote Collaboration.

Hobbies: Playing Guitar, Football, Events & Hackathons

Languages: English, Hindi
